SHPE Jr Industry Tour

Three local SHPE Jr chapters (Trimble Tech High School, North Side High School and Irving MacArthur High School) participated in a Lockheed Martin factory tour and flight simulator demonstration this past Friday, May 9th.

With over 75 participants, these high school students took a deep dive in learning the manufacturing process and life in the aerospace industry. In addition to the tour, the students were provided lunch and competed via small teams in a STEM activity.

A big thank you to all our volunteers and especially Lorena Loucel for leading the event this past weekend.

SHPE and Toluca Tec Meet at UT Arlington

On Thursday, April 17th SHPE members met with Toluca Tec engineering students at the University of Texas at Arlington to discuss professional development and about potential careers at Lockheed Martin Aeronautics. This continues a partnership established for several years now with the Fort Worth Sister cities program to promote educational and cultural exchange around the world.

This has become a recurring event that is beneficial to both the students and SHPE volunteers. We look forward to continuing this partnership in the future.

Special thanks to Gabe Beard, Lorena Loucel, and Alfonso Hidrogo for volunteering for this event on a working Thursday.
